

# **Minutes**

**Project Partner Meeting Tallinn 10**<sup>th</sup> – **11**<sup>th</sup> **November 2015** 

# **WP 1**

### **Budget:**

As a consequence of the delay in reaching contractual agreement between the BONUS program and the Republic of Latvia, which affected also the pre-financing, **budget shifts** will be necessary. Many partner currently face underspending. **Jurga** will start to organize a budget shift for the EU money. A precondition for this are national budget shifts by all affected partners (likely for SLU, TU, IBW, possibly also KU and IOW; special situation of UL and its impact on the overall project budget to be considered). Please contact your national funding agency, if necessary.

## **Activities reporting:**

All partners asked to **document dissemination activities** better (e.g. discussions with stakeholders, presentations, posters, etc.)

#### **Next meetings:**

Next project partner meeting: **Murcia,** Partner meeting on **29**<sup>th</sup> **February plus EuroLag conference:** <a href="http://www.um.es/7eurolag/">http://www.um.es/7eurolag/</a> which will include an BALTCOAST workshop on **1-4 March 2016.** 

Ideas for the partner meeting to be submitted to Holger (so far: 15 min for discussions on the website (Natalija); 3h WP 2 + 5, focus on conceptual models (Josianne & Grete) including short presentations on design step from the case studies)

The workshop (2.5 h) during the conference will focus on WP4 (re-analysis studies); major presentations from Ing-Marie, Josianne/Grete, Holger/Raimonds, possibly Donalda with Gonzalo, quicker presentations on selected re-analysis studies. Holger, Josianne and Ing-Marie will coordinate the workshop. Gerald will agree the overall contributions of BALTCOAST with Angel.

Ramunas is willing to give a presentation on Finnish ICZM within the thematic session.

Are et al. plan a presentation on "Coastal management practice over the last century and options for the future in Pärnu, SE Estonia"

Egle will submit an oral presentation and co-ordinate the Lithuanian contribution

All six active (here the re-analysis CS are not explicitly meant case study sites should provide at least a poster (all agreed). A layout example will be provided by the German team (Luca)

Josianne, Grete, Thomas: Presentation and paper on the Sound case study.

**Deadline** for abstracts for the conference and the workshop: **5**<sup>th</sup> **Dec**. Please send the headings of your abstracts to **Gerald.** 

#### Biarritz, Littoral 2016, 24-28 Oct 2016

Biarritz 2016: We agreed to have another meeting during LITTORAL 2016 - THE CHANGING LITTORAL in BIARRITZ - 24-28 October

We will have a project meeting on Monday 24th morning (before the conference) and a workshop on integrated coastal zone management on Wednesday 14:00 - 16:30.

Gerald accepted to give a keynote about ICZM - state and perspectives, where (our approach shall be promoted).

**ALL**: Please make up your mind on possible contributions and how to organize our sessions.

## **WP 3 Socio-economics**

Suggestion for a new structure that links cost-benefit analysis (CBA) to the SAF steps; might be more feasible than the cost-effectiveness approach which is outlined in the DoW. CBA thinking fits to the concepts of the indicators and ecosystem services. For the case studies more flexibility might be required, both approaches favored.

The data collection is a task of the case study teams. SLU will give guidance on what data, which approach, etc.

Conceptual modeling stage suggested to be the right momentum to get the economic analyses integrated into the case study work. By the beginning of January documents on issue description etc. for all six case studies shall be sent to Ing-Marie. Next step shall follow in February with a round of Skype meetings. Ing-Marie to check Josianne's and Grete's questionnaire for the case study sites, whether her information needs are reflected.

# **WP 4 Re-analysis**

An overview was given about the re-analysis case studies from SWE, DK, DE, PL, LV, and EE. **Separate** session to be agreed with Ramunas for the case studies in FI, LT, and RUS (in early December).

All: Please send your re-analysis presentations to Holger, alternatively upload them to the Dropbox folder and notify Holger.

**Holger** will develop an outline together with Josianne, Grete, Raimonds, and Ramunas. All re-analysis partners will be included in the communication and concept development.

# WP 5 & WP 2 Case studies & SAF

An overview was given about first SAF steps within the active case studies from DK, DE, PL, LT, LV, and EE.

## **WP 6**

Indicator based Sustainability Assessment Tool: Additional re-analysis case studies needed, Ramunas might be willing to collaborate with the Lithuanian case studies; Thomas will check whether one of his students is willing to join in.

Stakeholder Preference & Participation Tool: Applications ongoing, presentation planned for Murcia.

# **WP 7.1 Dissemination**

- A BALTCOAST poster to be used for national events, stakeholder workshops etc. is now available in German and English language. This poster will be discussed internally and with the partners. The English version will, as soon as content and layout are agreed, be sent to the partners for translation into national languages.
- News about BALTCOAST and its activities has been published in various newsletters and via social media (Facebook, Google+, Twitter)
- Please send updates (pictures, short info on current and upcoming activities) to Vincent (<a href="mailto:foej@eucc-d.de">foej@eucc-d.de</a>) for the social media and Viktorija (<a href="mailto:viktorija.sabaliauskaite@io-warnemuende.de">viktorija.sabaliauskaite@io-warnemuende.de</a>) for the BALTCOAST Website.
- Coastal & Marine Magazine: The magazine aims at those professionally involved in coastal management, planning and conservation in Europe. It features articles about projects, institutions, policy and management and other coastal topics, and frequently includes case studies and special issue sections. In BaltCoast 3 Coastal & Marine issues are planned.

1st BALTCOAST issue of the magazine "Coastal & Marine" to be published in mid-2016. Aim of the journal is to promote the project and to inform a wider interested audience about the the approach and its application

### Topics:

- Introduction to BALTCOAST incl. overview about all case studies
- SAF
- Re-analysis Nardine to follow up on this in bilateral discussions with partners.

[Please find the Draft content below]

#### Timeline:

- Final structure of 1st issue by end of November
- Instructions to authors by beginning of December
- Deadline for article submission: 12.02.2016

### The content (draft for discussion):

[Authors and titles are preliminary suggestions.]

Cover	(1 page)
Editorial (BONUS secretariat, Andris)	(1 page)
Introduction to the project (Gerald et al.)	(2 pages)
The System Approach Framework A guiding methodology fo	er coastal management (lesianne, Corald et al

The System Approach Framework – A guiding methodology for coastal management (Josianne, Gerald et al) (2 pages)

Backcover	(1 page)

# WP 7.2 Capacity building

Focus on young Post-graduates and PhD-students (master students can be considered, as well) involved in the project and from the partner institutes, if there is space left then the summer school could be opened up to external students; maximum 20 participants.

Aim is to give young staff that was not involved in the project from the beginning, an overview about the work, as well as to test our tools and teaching material.

The summer school will be organized in co-operation with BONUS BALTSPACE, who covers the second week.

Draft agenda is attached below.

Deadline for response on partners' involvement: 01.12.2015
